How do I post a message to the entire group?

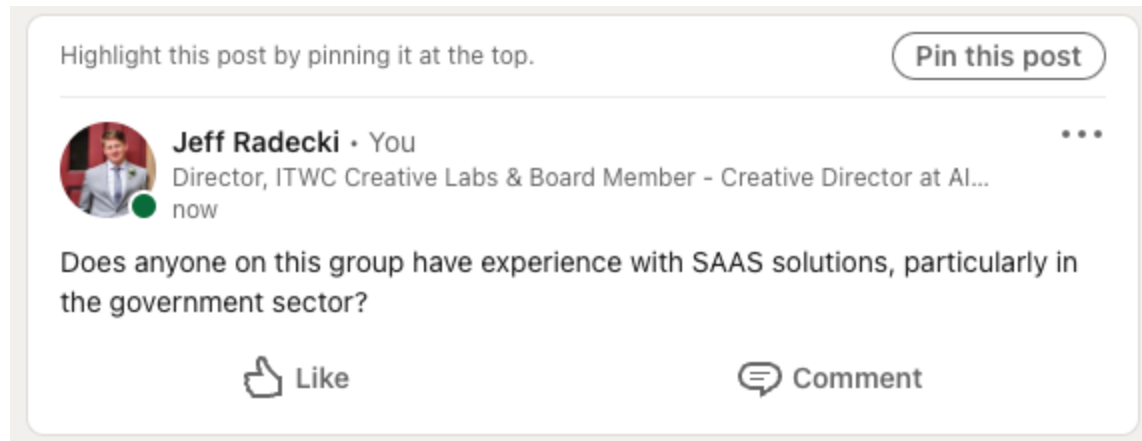

At the top of the group start a new post

Type in you post, video or poll question.

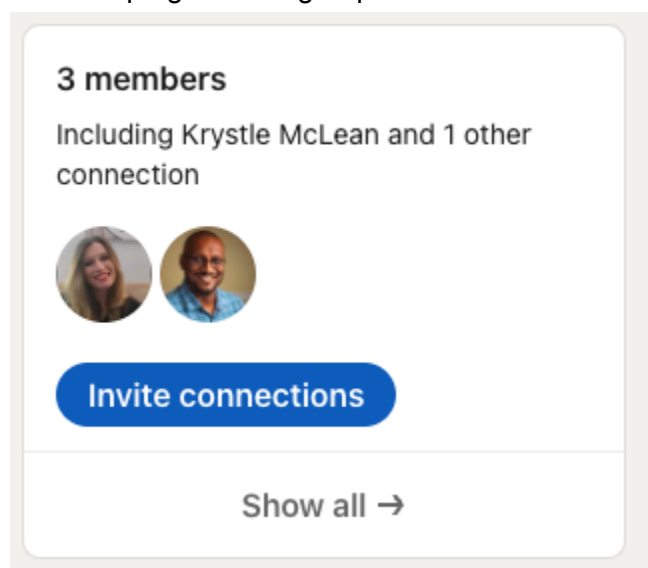

This will then show up in the group and you can see replies and get notifications

How do I find another member?

On the top right of the group click show all where it shows active members.

Then you can scan the list or use the search to find a specific member

Message

The linkedin chat bubble will pop up and send a message to the member and if online video calls are also included.

How do I get Notifications for activities in the group?

This is the best part, it leverages LinkedIn's existing notification stream and allows you to personalize how often you are notified and it gives you notifications in many different ways. In the LinkedIn App, in the web version of LinkedIn under notifications, on your LinkedIn profile posts stream, via LinkedIn emails and summaries ... and even more.
